**\*\*Remark :** Exhibitor's Manual may be changed to be more

Dear Exhibitors,

On behalf of P.K. Exhibition Management Co., Ltd., thank you for participating in the Thai Teaw Thai 74th & Thai Teaw Nok #4. To assist you in preparing for this forthcoming event, we have prepared this manual to simplify your arrangements.

You are advised to study this manual carefully and thoroughly not to miss important information required to set up your booth successfully.

All forms should be duly completed and submitted by the stipulated deadline to meet all your needs. Please submit the relevant form via FAX to the respective companies stipulated on the forms. We would be grateful if you could observe closely the deadlines for submission. You should also retain a copy of the forms for your reference so that queries can be settled immediately should any arise.

Should you require any assistance, please contact the Operation Officer at **Phone No. 02-307-8555 ext. 5114, 5111**. And mail: [Operation@pkexhibition.com](mailto:Operation@pkexhibition.com). We thank you for your support and cooperation and look forward to working with you towards the success of this content.

**Organizer**

Chollatan Nisaichol

Route of entrance to the parking lot inside the exhibition building

# Rules and Regulations in the Exhibition Hall

## Required Document (Must have)

### 1. Business License

- 1.1 Hotel and Resort: Hotel Registration License that is valid for at least 2 years from the date of issuance of the license until the day the event starts, issued by the Ministry of the Interior. In case the license expires or is in progress, the receipt issued by the relevant department should be submitted for consideration on its behalf.
- 1.2 Tour and Travel agency: the Travel Agency Business Licence that is valid for at least 2 years from the date of issuance of the license until the day the event starts, issued by the Department of Tourism.
- 1.3 Hotel and Resort + package tour: Must have 2 licenses of 1.1 and 1.2.
- 1.4 Attraction/Golf Course: Business Registration Certificate, at least 6 months from the date of issuance of the license until the day the event starts, issued by the Ministry of Commerce. So, the objectives must contain details of that type of business.

**2. Business Registration Certificate:** At least 6 months from the date of issuance of the license until the day the event starts, issued by the Ministry of Commerce. So, the objectives must contain details of that type of business. For the ordinary person registration certificate, a copy of a valid ID card can be used.

**3. Labeling of products and services:** Requesting cooperation from restaurant operators, products, including tourism and services, to clearly display prices because there will be officers from the Office of the Consumer Protection Board inspecting price labels of products and services as required by law.

**Note!!!** While the event time, exhibitors are requested to abide by all prescribed rules. If the exhibitor doesn't comply with the prescribed rules and regulations. The organizer reserves the right to cancel use of the space during the event without refund and disallowed to attend the event next time.

**To** Travel agencies, hotels, and resorts must present their business licenses to officials of the Department of Tourism. and placed in the visible throughout the event.

**Warning** Department of Tourism, Division of Tourism Business and Guide Registration Center in collaboration with Tourist Police bureau will check the tour package and tour business license in the booth. If you don't have a license or an invalid license, they can order the booth to be closed, and legal action can be taken immediately.

## Official Badges

### 1. EXHIBITOR BADGE

1.1 Exhibitors can sign up to receive 5 badges/booth at the Loading entrance area behind EH 102-103.

1.2 Exhibitors must always wear an exhibitor's badge while in the exhibition area. We are not allowed to use other exhibitor badges or exhibitor badges arranged in the past. Only a badge from the current event is required for safety reasons.

1.3 Exhibitors without badges will not be allowed to enter the venue.

1.4 Exhibitor badges are valid from the day of preparation until the last day of the event in all areas of the event.

**\*\*Remark\*\*** In case if exhibitor didn't get the badges on Set Up Day (24-25 June 2025), you can get them on 26 June 2025, between 08:30 -10:00 only.

If you have not received the exhibitor badges within the specified time, please contact the organizer's counter.

### 2. CONTRACTOR BADGE

2.1 Contractors can get the badges at the Loading entrance area behind EH 102-103

2.2 For safety reasons, contractors must always wear the badge while in the exhibition area.

2.3 Contractor's badge can be used on the Set-Up Day only and can not be used on the event day unless permitted by the organizer.

2.4 If the contractor loses the card, he/she will not be permitted to leave the area and will have to pay a fine of 100 baht per card.

### Example of EXHIBITOR BADGE and CONTRACTOR BADGE

## Construction and decoration of standard booth

### Standard Booth

The organizer has appointed N.C.C. Management Development Co., Ltd., which is the official contractor for the standard booth.

#### ❖ Standard booth equipment details

- ✓ Standard Shell Scheme
- ✓ Fascia with the company's name (height 30 cm)
- ✓ 2 Chairs
- ✓ 1 Table (Size W55 x L120 x H75 cm.)
- ✓ 2 fluorescents (14 watts)
- ✓ Trash bin
- ✓ A Power Socket (5 amp.) **\*\* Do not use lighting.**

Construction and decoration of booths, Exhibitors can choose to use a standard booth, or they can also use your contractor to build a booth. However, exhibitors must comply with the regulations for both construction and decoration as follows:

### For Standard Booth

The organizer asks for your cooperation in following the regulations for using standard booths as follows:

1. Expansion or construction of booths at a height exceeding 5 meters from the building is not allowed. (Standard booth height = 2.5 meters.) and not allow any part of the structure or decoration, including decorative lights, to extend outside the contracted area. Must be kept within your booth only.

2. Painting on the walls of standard booths is not allowed. If you would like to install stickers or other materials on the wall, please contact the official constructor for the standard booth of the event. (N.C.C. Management Development Co., Ltd.)

3. Do not nail, hang, or fix any part of the standard booth or construction to any part of the structure of the exhibition building.

4. Installation of electrical lighting or power sockets within the standard booth. Must be ordered from an official electrical contractor only.

5. Regulations for exhibitors (Do not do anything that will cause damage to the booth walls.)

5.1 It is strictly prohibited to add, change, or move the structure of the standard booth. If it is necessary to change the style of the booth, please contact the event's operations officer to proceed.

5.2 Do not paint, spray, or write on the walls, and do not spray glue or apply silicone on the wall panels.

5.3 Do not drill, hammer nails, shoot pellets, scratch, or otherwise cause damage to the wall panels or booth structure. If you want to attach or attach anything to the wall, please consult with the operating staff first.

6. Fascia with the company's name, height 30 cm, and width 3 m. (Letters height 10 cm.) In front of the booth, fix it with an aluminum frame by indicating the company name and booth number.

7. In case the exhibitor doesn't want any equipment in the booth, please fill in the form and send it to the organizer or N.C.C. Management Development Co., Ltd to proceed. (If you haven't informed in advance, processing may be delayed.)

7.1 Do not add, change, or move the structure of the standard booth. If it is necessary to change the form of the booth, please contact the company's operations staff to proceed.

7.2 Do not paint, spray paint, scratch, or write on the wall. Do not spray glue, glue, or silicone on the wall panel.

7.3 Do not drill, nail, scratch, or damage the wall panel or any part of the booth structure. If you want to attach or fasten anything to the wall, please consult the operations staff first.

8. The company name sign is a name sign 30 cm high and 3 m wide (the letters on the name sign are 10 cm high) in front of the booth.

It is attached to the aluminum edge and will state the company name. and booth number

9. Electricity and furniture have 3-pin plugs, size 5 amps (not for use with lighting), 2 fluorescent lamps, 2 fiber chairs, 1 public relations table, and 1 trash can

10 In case the exhibitor of the standard booth does not need walls, nameplate structure, electricity, and furniture (tables, chairs, trash cans) inside the standard booth, please inform the organizer in the form to proceed according to your needs (in case of not informing in advance or informing the construction date, you may not be convenient)

**Remark:** If no exhibitor has followed or violated any of these regulations, N.C.C. Management Development Co., Ltd is responsible for the construction of standard booths, exhibitors will be charged a fine of 3,000 baht/sheet.

#### ❖ Booth equipment details (For "Food Zone" only)

- ✓ Shell Scheme (height 2.5 m.) with wall panels (height 0.5 m)
- ✓ Fascia with the company's name (height 30 cm)
- ✓ 1 Chair
- ✓ 1 Table
- ✓ 1 fluorescent (14 watt)
- ✓ Trash bin
- ✓ A Power Socket (5 amp.) **\*\* Do not use lighting.**

#### For Raw Space

Exhibitors use raw space (**Excluding electricity and furniture**) for booth decoration. Whether the exhibitor will hire a contractor or not. Please fill out the form "**UNOFFICIAL CONTRACTOR**" with perspectives booth's design

The height of the building must not be more than 5 meters. In cases where your booth is more than 2.5 meters but not more than 5 meters high, it must be a transparent structure or approved by the organizer and venue department as appropriate and safe. In this case, the location of the light installation will be specified for the organizer to approve by **26 May 2025**. Exhibitors can build booths as follows.

1. The organizer must mark the area boundary of your booth construction according to the reserved area size.
2. Since your booth is a space, there is no electricity or lighting. If you want to install an electrical system in your booth, for electricity on the construction demolition day, and electricity and equipment on the exhibition day, please make a reservation to rent electrical equipment via the N-Service Online system with N.C.C. Management and Development Co., Ltd.
3. When displaying products, you must display the company name and booth number.
4. In the case of a space adjacent to another booth, the exhibitor must build a wall to separate your booth. It is strictly forbidden to use the walls of other exhibitors' standard booths. The back of the booth wall must be completely covered with plain-colored materials without patterns.
5. In the case of using double-sided tape, the building is a cement floor. There should be protection and a tape that does not damage the building floor should be selected. The exhibitor must coordinate with the contractor to follow the procedures in the manual. If any damage occurs to the building, the exhibitor shall be responsible for the expenses.
6. No part of the structure or decorations, including decorative lights, shall protrude outside the contracted booth area. They shall be kept within their booth only.

#### CONSTRUCTION & SAFETY CONCERN

General rules and regulations for exhibitors and contractors at BITEC were created to allow everyone to work in a safe and orderly environment. Therefore, the organizer would like to request the cooperation of all exhibitors and contractors to strictly abide by the rules.

1. Exhibitors must inform the organizer of the name of the contractor company and must submit special decoration designs to the organizer 1 month before the construction date.
2. Do not allow hanging booth construction, products, or booth decoration equipment from the building in any case.
3. Inside the exhibition hall (Exhibition Hall 98-104), there are hanging points to support different weights in each area. The hanging points can support a weight of no more than 200 kg. / Point.
4. Lighting & Speakers truss, the truss design & rigging plot & total weight are required to be submitted to the organizer and Exhibition, the following for review, not later than 14 days before moving in the period.
5. In the case of installing, hanging, or suspending decorative structural trusses, a form must be submitted with details certified by a third-level engineer.
6. Any items that are hung without submitting a design and without written permission must be removed immediately by the contractor/exhibitor/organizer because BITEC must take into account the safety of the public as the main concern.
7. Construction, decoration, or installation- dismantle all kinds of equipment at high elevations. Operators must always wear helmets, safety belts, and sports shoes to ensure safety.

\* Contractors are strictly prohibited from climbing out of the catwalk area.

8. If it is necessary to work outside the catwalk area, BITEC has a Boom Lift service with operators available. (Pay additional fees)

9. Booths, Structures, and decorations must lay carpets to prevent damage to the floor.

10. Do not use any double-sided tape (such as adhesive tape or foam tape) or glue to use on the floor. The Contractor or Exhibitor can only use carpet tape to prevent damage to the floor.

- **Not allowed** Use thin tape, foam tape, single-sided and double-sided tape, or other types of tape. Also, never apply glue to the floor or paint on the floor.

- Carpet tape used for decorating floors or carpeting must be thick carpet tape (check condition before used).

This document is confidential. It is intended solely for SHIRAJ BURI GROUP internal use only. Access to this document by any other persons unauthorized. If you are not the addressee you are prohibited from copying it, distributing it or disclosing it to anyone other than the addressee.

11. Do not do anything that causes damage to the surface, walls, or structure of the building. If violated, the customer service department of Sirikit Center reserves the right to collect compensation.

12. Booths located close to the building wall or near the fire exit must be at least 1.5 meters away from the fire exit, fire extinguisher, and all types of fire extinguishers. There must be no structures, walls, booths, or any objects placed to obstruct the building. There must be at least 50 centimeters away from the building walls and partition walls.

13. Do not allow the use of equipment, tools such as circular saws, metal welding machines, rotary cutting machines, grinding wheels, polishers, or any tools that cause sparks, loud noise equipment, or equipment that causes dust or smoke to spread. If the specified regulations are not followed, the right to stop the operation is reserved immediately.

14. Spraying or painting with thinner or other flammable substances should be done outside the building or in the area after loading only.

Only water-based paint is permitted. And we must always provide a 15-pound Fire Ade 2000 Fire extinguisher in the area. Operations for safety and to avoid disturbing neighboring booths

15. Waste materials from booth decoration or structural waste from installation - demolition work, booth exhibitors, or construction contractors must be disposed of outside the area of the Queen Sirikit National Convention Center.

16. Do not bring any other substances that carry heat that may cause fire and risk explosions, such as fuel, flammable materials, or gas cylinders into the building under any circumstances. If the regulations are not followed, the right is reserved to immediately stop the operation.

17. Gases that can be brought into the building are Helium, Argon, Nitrogen, Carbon, Dioxide and should be placed on a rack (Gas Rack) with a gas cylinder lock for safety.

18. Do not allow the disposal of hazardous and toxic substances, such as chemicals, lubricants, acids, and petroleum products. Through the drainpipe Absolutely To comply with the law, if found, the customer service department of Queen Sirikit National Convention Center will proceed to collect a minimum fee of 10,000 baht/booth (excluding 7% VAT)

19. Do not wash containers and equipment, tools, and equipment used in construction/preparation in the bathroom and sink of Queen Sirikit National Convention Center

20. Do not allow water from the bathroom to be used in the booth. If water is necessary, it must be ordered through an official contractor only

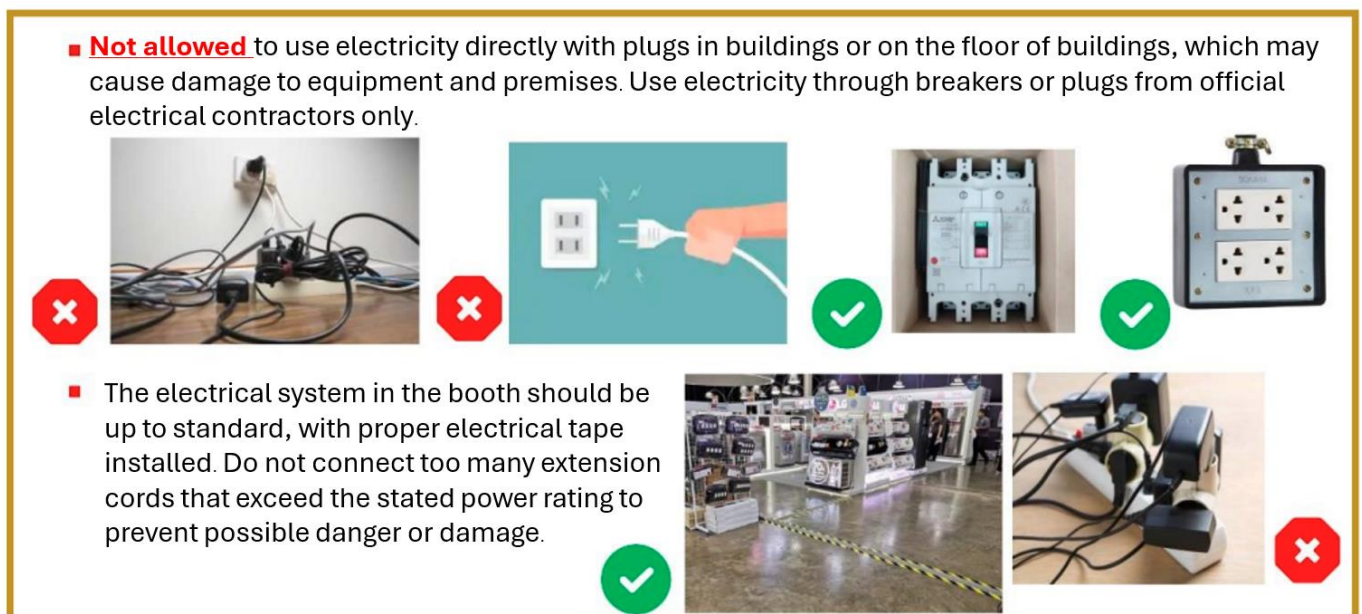

21. Do not allow to installation of air pressure equipment with a force exceeding  $\frac{1}{2}$  force. For the exhibition, contact the official contractor only

22. Do not allow the use of the power plug along the wall for construction, dismantling, and exhibition under any circumstances. The contractor must order

■ **Not allowed** to use electricity directly with plugs in buildings or on the floor of buildings, which may cause damage to equipment and premises. Use electricity through breakers or plugs from official electrical contractors only.

■ The electrical system in the booth should be up to standard, with proper electrical tape installed. Do not connect too many extension cords that exceed the stated power rating to prevent possible danger or damage.

\* If the electrical system is installed incorrectly or dangerously, it must be corrected immediately.

23. In the case of electrical work

23.1 The contractor or booth builder must check the electrical equipment to be in normal condition and safe to use.

23.2 All electrical equipment must be provided with protection against electric leakage or grounding.

24. The electrical installation of the contractor must strictly comply with safety regulations without exception and is not allowed to modify the 380 volts 50 hertz (3 phase or Three Phase) electrical system to 220 volts 50 hertz (1 phase or Single Phase) without going through a power distributor in all cases.

\* If the electrical system is installed incorrectly or dangerously, it must be corrected immediately.

25. For safety, all public utilities within the event will be “shut down” after the end of the event for 30 minutes from the time announced by the organizer (except if the official electrical contractor has informed BITEC that the operation is ongoing, or the electrical system is 24 hours a day).

After the system is shut down, the organizer and Queen Sirikit National Convention Center will not be responsible for any damage to your equipment or products.

26. Work should be done within the time specified by the organizer. If you want to work overtime, you must inform the organizer before 6:00 p.m. to coordinate and proceed accordingly. The venue fee will start after the time specified by the organizer. \*\* The above price does not include the construction overtime electricity fee.

27. Vehicles brought to the exhibition must be loaded with fuel not exceeding 1/8 of the fuel tank capacity, with all battery cables disconnected and wrapped with tape to prevent sparks, and the wiring system for the vehicle must be in accordance with safety standards.

28. It is prohibited to bring in or out goods during the exhibition. Goods will be allowed to be moved only during the specified time.

29. Drinking alcoholic beverages during construction and dismantling is strictly prohibited.

30. Smoking is not allowed inside the building and must be done only in the designated area.

**Note:** All booths with special construction designs must prepare canvases to cover the entire construction area. If there is any damage to the booth structure and/or the exhibition venue or the floor of the exhibition building, the exhibitor will be responsible for the damage that occurs.

#### Balloon installation

Advertising balloons or inflatable balloons should be placed properly and must not affect nearby booths. The balloon detail is required to submit to the organizer and BITEC the following for review, not later than 14 days before the moving-in period

- For gas, **only helium** is allowed, and the balloon must be inflated outside the building.
- Limit the height of the balloon installation from the ground to no more than 5 meters, because there are sensors and air conditioning fans inside the building that may cause damage and may cause problems during the event.

\*\*\* If there is a problem with the balloon, the exhibitor will be responsible for the damage.

## Ordering electrical equipment

1. Standard booth size 3x3 m., and size 3x2 m. Each booth will consist of

- 2 sets of 14-watt fluorescent lights
- 1 set of 5-amp power plugs (do not use lights)

which items as mentioned, the organizer has already prepared this for you. In addition to this, exhibitors must place an order on the electrical item reservation form. (Electrical items for standard booths will change according to N.C.C. Management and Development Co., Ltd.'s bid to the organizer.)

2. The location for installing electrical equipment in standard booths will be determined. The location has already been installed. Exhibitors cannot change positions or change electrically installed items in standard booths. If the exhibitor does not want the list of electrical equipment in the standard booth provided by the organizer. The organizer considers that you have given up your right to what you should have received.

3. The electrical equipment order form is divided into 3 items:

Item 1 is for exhibitors who wish to order a lighting system

Item 2 is for exhibitors. Those who wish to order electricity to use with the products being displayed only, do not use it with lighting systems.

Item 3 is for exhibitors who wish to install their lights.

## Electricity used during

The organizer has assigned an official electrical installation contractor to take care of the lighting in the exhibition building.

1. Standards of electricity used at the exhibition

1.1 - Electricity size 380 volts, 3 phases, 50 hertz, voltage up. Down between +10% for products that are sensitive to voltage fluctuations. For product safety, you should provide a voltage control device

- 220 volts, 1 phase, 50 hertz, voltage fluctuates between +10% for products that are sensitive to voltage fluctuations. For product safety, you should provide a voltage control device to connect with.

1.2 If you wish to order electricity in other forms, such as 110 volts, 1 phase, 50 hertz or 220 volts, 3 phases, 50 Hertz, which can be specially arranged by filling out the electrical equipment ordering form.

1.3 Electrical circuits are divided into 2 circuits, namely the lighting circuit and the power circuit.

2. Electric motors must have devices to prevent electrical surges. Automatic and must have a starter system as follows:

2.1 Motors with no more than 5 horsepower can be started directly.

2.2 Motors no more than 25 horsepower start with a Star-Delta system.

2.3 Motors, no more than 25 horsepower, start with an autotransformer system.

3. The electricity supplied to each booth will turn on and off. 30 minutes before and after the show.

4. For exhibitors who wish to use electricity for equipment that must be displayed 24 hours a day, they must fill out a form. Comes with ordering electricity before the specified time.

5. 2 fluorescent light bulbs and a 5-amp power plug, which are included in the ready-made booth, are installed along with electricity.

6. Electricity price and the cost of installing the main cable have already been included in items 5.1, 5.2, and 5.3 (in the electrical equipment ordering form).

7. If you install the electrical equipment yourself, all electrical installations must be installed exactly as specified and ordered on the Electricity Ordering Form.

#### Installing lights in the work area

1. The organizer will provide lighting within the show building. For lighting within the exhibition booth or electricity for operating the demonstration equipment, exhibitors must contact the event's official electrical contractor to order the installation of additional electricity or lighting within the booth. By having exhibitors fill out a form for their needs. In the exhibitor's manual and send it to the official electrical installation contractor within the time specified in the form to ensure safety throughout the exhibition period by prohibiting exhibitors from continuing to operate or connecting electricity from the electrical cabinet. The building strictly the organizer reserves the right to terminate the supply of electricity or disconnect any wires that have been improperly connected.

2. Electrical installations at all trade shows. It can be done by only one official electrical contractor. Or those who have permission to work only.

3. Exhibitors who have contractors install electrical equipment within their booth. A list of all staff who will come to work must be submitted before one business day before they can come to work.

4. The contractor you appoint to install electricity in your booth. Installation details (electrical diagram) must be sent to the organizer in advance by the deadline on the booking form. The details must be submitted below. Otherwise, you will not be allowed to work in the building.

4.1 Technical details and quantity of watts used.

4.2 Total number of points where electricity will be installed.

4.3 Installation plan.

4.4 Name of the company that will be entering. Installation

4.5 Name and identification number or passport number of the technician who will install.

4.6 Complete the order form.

5. The electrical installation contractor who will install will be able to receive a pass card. You can enter the building to work in the building from the organizer's operations staff at the organizer's office in the exhibition building. The staff will ask for evidence to confirm and exchange cards so they can enter to work at your booth.

6. Your contractor must prepare internal connection points that meet standards for official contract staff to inspect. Examine and install controls to release electricity.

7. All electrical outlets must be ordered from the reservation form only, otherwise, installation will not be permitted.

8. The official contractor will arrange payment. Electricity will be given to exhibitors who order directly from the official contractor first.

9. Electrical connections or extensions that violate safety regulations, including connecting extension cords using three-way plugs, which can be dangerous. The organizer allows the responsible officials to cut them off without prior notice.

10. The organizer does not allow the installation of flashlights to decorate the booth unless the lights are installed along with the equipment imported for display only. Including the Installation of flashing lights, the size. The rhythm of flashing must receive permission from the organizer before installation.

11. Exhibitors who reserve space to decorate a special booth. The order list, along with detailed electrical equipment installation plans, must be submitted before the specified time.

12. To order additional electrical equipment, please read the details. Exhibitors or related people can make reservations through the N-Service Online system of N.C.C. Management and Development Company Limited.

13. For reservations that exhibitors or contractors can make. Orders made after the deadline must be adhered to as well.

13.1 The total amount of electricity, including the number of lights to be installed, must be reported as finalized beforehand.

13.2 You will incur an additional charge of 10% if the reservation order is submitted after the deadline, and 30% in the case of ordering in the exhibition area

13.3 In canceling the electrical order, the exhibitor must pay 50% of the price of the reservation order.

14. Contractors or exhibitors who are permitted to install electricity in their booth must reserve electricity on the order form. Reservation, which is divided into 2 types:

14.1 Ordering the size of the maximum electric current used at the event.

14.2 For exhibitors who wish to order according to the number of each light bulb installed. Which has a size not exceeding 100 watts. Contractors or exhibitors are not allowed to place an order for item 2 to be connected for use with lighting in your booth.

15. Any exhibitor or contractor who has connected the wires or installed any electrical equipment that will present a risk of an accident, or it is likely that an accident may occur to visitors or fellow exhibitors, may be harmed. On behalf of the organizer, we will request a temporary suspension of the electricity supply until the corrective action is completed.

16. Official contractors do not allow changes, edits, or take any action. It is strictly forbidden to officially connect all types of electrical equipment.

Note: Electrical plug sets will strictly not allow exhibitors to plug in their lighting systems. If the exhibitor plugs in the lighting equipment. Electricity will be cut off immediately.

17. According to the company, Be is the officially appointed contractor for electrical equipment services, electricity distribution, and ready-made booths. The company reserves the right to cut off the electricity if excessive loud noise causes distress to others or the company. We were notified by the organizer to cut off the power. Or the exhibitors do not follow the manual, rules, and regulations. For attendees strictly regarding the use of venues for organizing events, the exhibitors will not claim any compensation for the lost sound. That happened to the exhibitors, whether it is direct or indirect damage.

### Overall electrical system

The organizers will turn on the lights inside the building only during the exhibition day. The electrical power used in the BITEC Exhibition and Convention Center is 220 volts and will supply electricity inside the booths.

Approximately 1 hour before and after the show time.

N.C.C. Management and Development Company Limited will be in charge of the electrical system throughout the event. If exhibitors need electricity 24 hours a day or need other electrical equipment. Additional expenses must be borne by you. **You can order through the N-Service Online system of N.C.C. Management and Development Company Limited.**

### Furniture and decorations

Exhibitors can rent furniture and other decorative equipment **by ordering them through the N-Service Online system of N.C.C. Management and Development Company Limited.**

### security

1. The organizer will provide security services in the exhibition area. There will be security officers on duty throughout the exhibition area.
2. At the end of each day's exhibition, there should be cloth or paper strips to block the booth (which the organizer will not be responsible for in any case if there is any damage or loss of items).
3. For exhibitors, they must be responsible for their products, and it is recommended that exhibitors insure their products.

During the exhibition period,

4. Do not leave the booth empty without staff in the booth (which the organizer will not be responsible for in any case if there is any loss of items).
5. The organizer will not allow anyone whose name is not on the application form or has not been notified by the organizer to join the exhibition under any circumstances to prevent illegal companies from sneaking into the exhibition.

**Note:** During the construction, decoration, and demolition of the booth and on the exhibition day, exhibitors must be careful and responsible for

Their property and equipment were brought to display in the booth.

### cooling system

The organizer will turn off the air conditioning in the exhibition area on the day the booth is decorated. The air conditioning will be turned on from 26 – 29 June 2025, which is the exhibition day only.

### Work over the time

On the day of both constructions, the organizer will allow both construction and decoration until 24.00 hrs. only. If any exhibitor intends to construct beyond the specified time, please inform the organizer's room by 18.00 hrs. of each day and pay the overtime fee according to the rate of BITEC Bangna. The overtime fee is calculated as an area size/hour/booth/company, and 1 security guard must be hired. \*\* The above price does not include the overtime electricity service fee.

### Guidelines for displaying products

\*\*\* Exhibitors are kindly requested to wear a face mask/cloth mask throughout their time in the area. From the date of installation, the day of the exhibition, as well as the day of dismantling.

1. Exhibitors must have personnel stationed in the booth throughout the exhibition period. However, exhibitors must not do anything. To cause trouble or disturb the visitors. Or other exhibitors
2. Do not transfer the right to enter the exhibition to others. You are prohibited from taking your booth and allocating it to others who have not applied to participate in the event for sub-rental purposes. Exhibit products or chopping booths among themselves without permission, and this may affect your consideration of attending the event next time.
3. The exhibitor must open the booth. To display products throughout the trade show and prohibit moving products in and out of the booth. Displayed during show hours unless special permission has been granted by the organizer. You can notify us in advance at the organizer's room.
4. The exhibitor must be responsible for the actions of their officials or representatives.
5. The exhibitor must present information or facts about the quality of the products or services that will be displayed or sold. Completely as provided in the Consumer Protection Act.
6. All types of pirated products are prohibited from being sold within the event or venue. If they are violated, exhibitors will be held responsible according to the law. If the organizer requests an inspection, exhibitors must provide evidence of their rights to those products to the organizer or the organizer's inspectors.
7. In the case of complaints from government agencies or organizations and Visitors that your company has caused damage to visitors. The organizer reserves the right to cancel the use of the space during the show without a refund. And consider having your company join the event next time.
8. Do not advertise or publicize. Invite any business outside the exhibition booth
9. Exhibitors can post signs, posters, and stickers only in their booths.
10. Do not use megaphones or small amplifiers of any type.
11. In the case of unexpected events or force majeure on the day of the event, such as political events, government orders, riots, or wars, which cause the contracted services to be unable to be provided. The organizer reserves the right not to refund any expenses. The exhibitor pays the organizer and will not demand or request any compensation from the organizer.

### Use of sound within the event

The organizer does not allow the use of sound amplifiers during the event to prevent disturbing others, except for the central stage for various performances permitted by the organizer, award-giving, airline booths, pavilion booths (10 booths or more), and audio-visual equipment such as televisions, video (audio-visual equipment must be controlled to not exceed 60 decibels). Or if the organizer considers that it is too loud, there will be 1 warning. After that, the organizer reserves the right to reduce the volume or prohibit the demonstration in order not to disturb other exhibitors. If this is not done, the organizer reserves the right to cut off the power supply in that area without prior notice.

**\*\*Booths that use sound amplifiers must be authorized by the organizer only and must send a letter informing the schedule of sound use to the organizer. \*\***

### Announcement of messages within the event

Due to the excessive number of announcements from those who contact companies/hops at the event, which is a distraction during business negotiations, the organizer reserves the right to use only announcements that are of public interest. Please refrain from posting personal messages.

### Handing out documents at work

Exhibitors' activities such as advertising, interviews, document distribution, or souvenir distribution must be done only inside the exhibitor's booth. Distributing food or beverages of any kind is not allowed, except in the food zone. It must not be a disturbance, block the entrance or exit, or public walkway, or create a nuisance to neighboring booths. Exhibitors are strictly prohibited from doing so unless permitted by the organizer. There will be a warning letter once. If another person violates the law, they will be fined 2,000 baht per person, and all documents will be confiscated.

### Transportation and loading, and unloading of goods

1. Transportation of materials, products, tools, and any equipment. Use only the designated back door of the building. Do not use the front door of the building.
2. The use of wheelchairs is not allowed. Wheels or any mechanical equipment. Draw through areas that are paved with granite, marble, and porcelain tiles. Or other materials, absolutely the same type. Unless permission has been received from the organizer first. The authorized person must lay down flooring materials such as plastic, carpet, etc., throughout the product loading and unloading route.
3. On the day of the show, for safety reasons, carts are allowed to be used to refill products, but **only in the food zone**.

### occurrence of damage

Since the organizer and Queen Sirikit National Convention Center inspected the building during the construction day and after the demolition, all exhibitors are responsible for any damage to the exhibition building, including carpets, caused by themselves, their representatives, their responsible officers, or their contractors who are not official contractors, whether intentionally or negligently. Exhibitors who exhibit in a standard booth are responsible for any damage caused by themselves, their representatives, or their responsible officers. If such damage occurs, the official construction contractor of the event will charge the exhibitors incurred by the exhibitors directly.

### Removing goods or merchandise ahead of time

If the exhibitor wishes to transport the goods or items before dismantling, they should contact the organizer's counter and present the method to the security guard at the exit. **Hand carts are not allowed to retrieve goods before 21:00.**

# Price table for electrical equipment and furniture

N.C.C. M&D Co., Ltd. has often encountered numerous short circuit problems causing danger to exhibitors and visitors mainly due to the installation of equipment that is not regulated by exhibitors or contractors, such as illegal connection or equipment adaptation, therefore, all electrical installation works must be carried out by applying the following rules:

1. All electrical installation must conform strictly to the required TISI standard (in Thailand) without any exception.
2. There are two main power supply circuits: "For Exhibit" and "For Lighting". It is forbidden to misuse the power supply as follows.
  - a. Orders under Section B: Socket/Breaker for Exhibits are allowed for devices such as machinery, engine, TV, Laptop charger, etc. and **not allowed** to apply for all Lighting equipment such as spotlight, LED Ribbon, etc.
  - b. Orders under Section C: Breaker for Lighting are allowed for devices such as Spotlight, LED, Ribbon, etc.
3. The cable of a main power, water, and compressed air supply from the utility hatch, is provided at **2-meters** long. An extension of the length or any relocation are subjected to a surcharge following the price for each equipment.
4. The standard electrical supply is 110V, 220V, or 380V with approximately 10 percent fluctuation.
5. For all electrical usage, it is mandatory to calculate the circuit load with a 20 percent safety margin.
6. It is prohibited for power supply, water, and compressed air wiring equipment to be installed crossing any aisle in the exhibition for safety reasons and not to obstruct traffic for all exhibitors, visitors, and other contractors.
7. A 3-Phase circuit breaker is required to **connect directly** with machinery or engine, otherwise, a **load center** will be required if multi-connection is needed.
8. The company prohibits any equipment installation that causes damage or misuse to our equipment installed for the exhibition.
9. The Electrical Official Contractor reserves the right to disconnect the electrical supply to an installation, which in opinion is deemed as dangerous or likely to cause disturbance to others without prior notice. Exhibitors/contractors will not be entitled to claim any damages both directly and indirectly from any and all parties involved.
